TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML/CSS

Frameworks: React, Node, Express.js, Next.js

Databases: MongoDB, PostgreSQL, Firebase, Appwrite

Developer Tools: Git, Docker, Vercel, Postman, Tailwind

Others: Redux, Axios, Stripe, Authentication and Authorization

EXPERIENCE

Frontend Developer

August 2025 – October 2025

Surat, IN

GOAT Developers

- Developed two production websites for a copy-trading platform using Next.js, React Query, Zustand, Tailwind CSS and Supabase.
- Implemented authentication, live data syncing, and reusable UI components for scalable frontend architecture.
- Optimized responsiveness and performance, enhancing cross-device user experience.

PROJECTS

ShrinkIt | *Next.js, MongoDB, TypeScript, Framer Motion, Tailwind CSS*

- Developed a modern URL shortening application with advanced features including password protection, QR code generation, and link management
- Implemented user authentication using built-in middleware and cookies
- Utilized MongoDB with Mongoose for efficient data handling
- Integrated TypeScript for improved type safety and maintainability and enhanced user experience through dynamic animations with Framer Motion

Flickrr | *Next.js, MongoDB, NextAuth, OpenAI, TypeScript, Framer Motion, Tailwind CSS*

- Built an anonymous feedback application enabling secure and open communication
- Enhanced UI with dynamic animations using Framer Motion and maintaining a responsive design with Tailwind CSS
- Implemented user authentication using NextAuth and also supported custom authentication
- Leveraged MongoDB and Mongoose for efficient data management

Arise | *React.js, Firebase, Stripe, Firebase Cloud Functions, Redux, Three.js, Axios, Tailwind CSS*

- Developed a dynamic web application with user authentication and real-time data management using Firebase
- Integrated Stripe for secure payment processing and implemented advanced features such as 3D view for enhanced interaction
- Utilized Redux for state management, improving application performance, and Axios for API interactions
- Designed a responsive user interface using Tailwind CSS, enhancing cross-device compatibility

EDUCATION

V.B.S. Purvanchal University

Jaunpur, UP

Bachelor of Computer Applications

Sept. 2022 – May 2025

- CGPA: 8.5/10
- Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Data Mining

INTERESTS

Progressive Web Apps, Machine Learning, Deep Learning
